Methodology

The surveys for this study were conducted online by Scott Rasmussen. Field work was conducted by RMG Research, Inc.

The Elite 1% are defined as those having postgraduate degrees, having household incomes of more than \$150,000 annually, and living in zip codes with more than 10,000 people per square mile. Approximately 1% of the total U.S. population meets these criteria.

Federal Government Managers were defined as those working for the federal government or federal government agencies, having household incomes of more than \$75,000 annually, and living in the National Capitol Region (the D.C. metro area).

Margin of Sampling Error for full sample and for Elite Voters is +/- 3.1 percentage points
Margin of Sampling Error for Federal Government Managers is +/- 4.4 percentage points
