Napolitan News Service Survey
of 711 Registered Voters in the National Capitol Region
Conducted February 27-March 7, 2025

National Capitol Region Voters Methodology

This survey of 711 Registered Voters in the National Capitol Region was conducted online by Scott Rasmussen on February 27-March 7. Field work for the survey was conducted by RMG Research, Inc. Certain quotas were applied, and the sample was lightly weighted by geography, gender, age, race, education, internet usage, and political party to reasonably reflect the population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.

The margin of sampling error for the full sample is +/- 3.7 percentage points.

Registered Voters Methodology

This survey of 1,000 Registered Voters was conducted online by Scott Rasmussen. Field work for the survey was conducted by RMG Research, Inc. Certain quotas were applied, and the sample was lightly weighted by geography, gender, age, race, education, internet usage, and political party to reasonably reflect the nation's population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.

The margin of sampling error for the full sample is +/- 3.1 percentage points.
