

Napolitan News Service Survey
of 1,000 Registered Voters
Conducted August 13-14, 2025

1 Generally speaking, how reliable are the official government statistics measuring things like unemployment and inflation?*

13%	Very reliable
34%	Somewhat reliable
30%	Not very reliable
16%	Not at all reliable
6%	Not sure

2 Do government officials release the data in a neutral and unbiased manner, or do they play politics with the data?*

24%	They release data in a neutral and unbiased manner
68%	They play politics with the data
8%	Not sure

3 Suppose official government statistics on the economy showed a different result from private sector statistics on the economy. Which would you trust more?*

20%	Government statistics
59%	Private sector statistics
20%	Not sure

Napolitan News Service Survey
of 1,000 Registered Voters
Conducted August 13-14, 2025

Methodology

This survey of 1,000 Registered Voters was conducted online by Scott Rasmussen on August 13-14, 2025. Field work for the survey was conducted by RMG Research, Inc. Certain quotas were applied, and the sample was lightly weighted by geography, gender, age, race, education, internet usage, and political party to reasonably reflect the nation's population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.

The margin of sampling error for the full sample is +/- 3.1 percentage points.

This survey was paid for by Napolitan News Service as part of the service provided for our Gold Circle Members.
