Margin of Sampling Error: +/- 3.1 percentage points

Napolitan News Service Survey
of 1,000 Registered Voters
Conducted October 29-30, 2025

3 How confident are you that all of the boats destroyed by the U.S. military were in fact smuggling drugs into the United States?*

25%	Very confident
26%	Somewhat confident
20%	Not very confident
21%	Not at all confident
8%	Not sure

4 Is it more important to stop all boats that may be carrying drugs into the United States or to intercept and inspect all boats first in order to determine that they are indeed carrying drugs?*

36%	Stop all boats that may be carrying drugs into the United States
59%	Intercept and inspect all boats first in order to determine that they are indeed carrying drugs
4%	Not sure

Methodology

This survey of 1,000 Registered Voters was conducted online by Scott Rasmussen on October 29-30, 2025. Field work for the survey was conducted by RMG Research, Inc. Certain quotas were applied, and the sample was lightly weighted by geography, gender, age, race, education, internet usage, and political party to reasonably reflect the nation's population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.

The margin of sampling error for the full sample is +/- 3.1 percentage points.

This survey was paid for by Napolitan News Service as part of the service provided for our Gold Circle Members.
