6* How closely have you been following news about events in Minneapolis?

39%	Very closely
35%	Somewhat closely
15%	Not very closely
8%	Not at all closely
3%	Not sure

Napolitan News Service Survey
of 1,000 Registered Voters
Conducted January 10-12, 2026

7* After the shooting in Minneapolis, political leaders from both parties immediately gave press conferences and blamed the other party. Did this approach of quickly speaking to the media and talking about who was to blame help to address people's concerns in a constructive way, or did it add to a sense of fear and panic?

22%	It helped to address people's concerns
64%	It added to a sense of fear and panic
15%	Not sure

8* Everyone agrees that the death of a woman in Minneapolis was a terrible thing. However, some say that she was mostly responsible because she had been acting to obstruct ICE operations and was threatening toward ICE agents. Others say that the ICE agent acted irresponsibly and was never really in any danger. Which is closer to your view?

43%	The woman killed was mostly responsible because she was threatening toward ICE agents
44%	The agent acted irresponsibly and was never really in any danger
13%	Not sure

9* In recent weeks, controversy around the work of ICE agents, protests against ICE, and political rhetoric around immigration has become particularly heated. Who is mostly responsible for this increase in the temperature?

43%	The Trump Administration
28%	Democratic politicians
22%	Both equally
8%	Not sure

Napolitan News Service Survey
of 1,000 Registered Voters
Conducted January 10-12, 2026

Methodology

This survey of 1,000 Registered Voters was conducted online by Scott Rasmussen on January 10-12, 2026. Field work for the survey was conducted by RMG Research, Inc. Certain quotas were applied, and the sample was lightly weighted by geography, gender, age, race, education, internet usage, and political party to reasonably reflect the nation's population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.

The margin of sampling error for the full sample is +/- 3.1 percentage points.

This survey was paid for by Napolitan News Service as part of the service provided for our Gold Circle Members.
