

Napolitan News Service Survey
of 1000 Registered Voters
Conducted February 18-19, 2026

1 How closely have you been following recent news about environmental regulations?*

12%	Very closely
32%	Somewhat closely
35%	Not very closely
19%	Not at all closely
2%	Not sure

2 Last week, the Trump Administration repealed the “endangerment finding,” which means the EPA will no longer be able to regulate greenhouse gas emissions. Supporters say it will reduce the cost of new vehicles by about \$2,400 each and make them more affordable for American families. Opponents say it will lead to more pollution and climate change. Which is more important?*

37%	Reducing the cost of new vehicles to make them more affordable
50%	Reducing pollution and climate change
12%	Not sure

3 Some philanthropists, including Bill Gates, have argued that disease and hunger are more significant threats to humanity than climate change. They are shifting much of their giving to fighting hunger and disease worldwide, and away from efforts to reduce carbon emissions. Which is more important?*

71%	Fighting disease and hunger worldwide
20%	Reducing carbon emissions
8%	Not sure

Napolitan News Service Survey
of 1000 Registered Voters
Conducted February 18-19, 2026

Methodology

This survey of 1000 Registered Voters was conducted online by Scott Rasmussen on February 18-19, 2026. Field work for the survey was conducted by RMG Research, Inc. Certain quotas were applied, and the sample was lightly weighted by geography, gender, age, race, education, internet usage, and political party to reasonably reflect the nation's population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.

The margin of sampling error for the full sample is +/- 3.1 percentage points.

This survey was paid for by Napolitan News Service as part of the service provided for our Gold Circle Members.
